### Producto

Producto	<b>Charcoal Briquette Press Machine 4 Tons Per Hour - MKBC04</b>
Categoría	Briquette Machines
Subcategoría	Charcoal Presses
Precio	<b>\$14,054.00</b>

### Descripción

The raw material for producing briquettes can come from small pieces of broken coal in storage, which break during transport, or are generated after use in the furnace. With this machine, coal and coal dust can be converted into coal briquettes (small and round, cube-shaped, etc.) to be recycled as fuel, for use in barbecues, or other coal applications. Before briquette production, the material must be mixed and slightly moistened, and the yield will be 100% coal dust / pieces / coal waste fragments.

### Especificaciones técnicas

Especificación	Valor
Potencia	15 kW
Capacidad	4 ton/hr
Dimensiones	1900*1560*1860 mm
Peso	900 kg
Humedad	30%
